

THE WARRIOR'S TABLE

RECIPES THAT CULTIVATE CONNECTION THROUGH WAR, CHANGE, AND UNCERTAINTY

What is The Warrior's Table?

The Warrior's Table tells the story of life in the Special Operations Forces (SOF) community through the experiences of real SOF spouses and families across the service branches. Our family dinner team, The Cast Iron Crew, shares recipes from decades in SOF and how they safeguard what matters most. This unique cookbook is more than just that – it's a book of delicious recipes *and* a guide to connecting and thriving in this demanding lifestyle.

Why Write a Book on Family Dinner?

We wrote *The Warrior's Table* in collaboration with Dr. Anne Fishel of The Family Dinner Project, to elevate the lived experience of the SOF family and to reinforce and affirm the need for a strong military culture characterized by a respect for the mission, history of our forces, and a strong community camaraderie.

Intentionally Building Connection & Belonging

Living intentionally in special operations is incredibly hard. It's easy to let "common pitfalls" slip in and break down simple habits needed to endure and overcome challenges that inevitably arise. Mealtime can be a family and community ritual that reinforces routines and habits to counter those pitfalls, because shared mealtime is not about being tied to an oven or the dinner table – it's about fundamentally caring for the minds, bodies, and hearts of those in your life. Mealtimes are ultimately about building belonging to a family, a community, and lifestyle.
